

INTRODUCTION TO PROFESSIONAL INDEMNITY INSURANCE

Course Description

This course will provide delegates with an introductory explanation of the legal and technical aspects of Professional Indemnity business. This will include an outline of how professionals incur liability, the cover normally provided, an introduction to risks facing the professions, and the role of risk management.

Target Audience

This course will be of interest to anyone who is new to Professional Indemnity business or has a little knowledge they would like to enhance.

Course Objectives

On completion of the course delegates will:

- Be able to identify the types of organisation that require Professional Indemnity cover
- Have an understanding of how professionals incur liability
- Understand the differences between “Civil Liability” and “Negligent Act Error or Omission” professional indemnity wordings
- Be familiar with the principal extensions and exclusions which are usually included in a Professional Indemnity policy
- Have an understanding of how Professional Indemnity coverage dovetails with other liability coverages
- Have an understanding of the main underwriting and broking considerations of some of the major professions

Course Format

The course will be presented as an interactive workshop with a mixture of presentations, discussions and case studies.
