

## **INTRODUCTION TO CYBER RISK INSURANCE**

### **Course Description**

This course will provide delegates with an introductory explanation of the risks presented by the Cyber world, how insurers are evolving specific policies to meet the needs of insureds, and an explanation of legal and regulatory aspects.

### **Target Audience**

The course will be of interest to anyone who is new to Cyber business or has a little knowledge they would like to enhance.

### **Course Objectives**

On completion of the course delegates will:

- Be able to identify the types of cyber risks to which firms are exposed
- Have an understanding of the extent of cover available under existing policies
- Have an understanding of how cover under specific Cyber policies is evolving
- Be aware of the main underwriting and broking considerations
- Understand the issues applicable to reinsurers

### **Course Format**

The course will be presented as an interactive workshop with a mixture of presentations, discussions and case studies.
